**Notes:**

- 1 Apart from Site Licenses all Miramo Licenses are for a single host/server. In the case of Production licenses there are no restrictions on the number of concurrent users: if the number of concurrent jobs exceeds the number of available processing channels, jobs are queued and processed in order. Jobs may be requested from remote hosts.
- 2 There is no upgrade path from a **Development License** to a **Production License**. There is no migration/transfer option from Windows NT to Unix or *vice versa*. Upgrades can be made from a 1PC, to a 2PC or a UPC license and from a 2PC to a UPC license. The cost of such upgrades is the difference in price shown above provided Maintenance is in effect. If Maintenance is not in effect the upgrade cost is the difference in price *plus* 25%. There is no discount for DR/fail-over licenses (i.e., the full, standard license price is payable for such licenses).
- 3 Standard software Maintenance (mandatory for the first year and with major version upgrades and host upgrades) costs 15% of list price per year, from date of purchase.
- 4 **Gold Service Support** and **Silver Service Support** options are available. Please contact your Miramo Solution Provider or Datazone directly.
- 5 *Upgrades* Users with software Maintenance may receive minor upgrades free, and may purchase major upgrades at 25% of list price. Upgrade pricing for users *without* software Maintenance is 25% of list price for minor upgrades, and 40% of list price for major upgrades.
- 6 The above pricing does not include the costs of the required FrameMaker licenses.
- 7 All prices are exclusive of taxes and shipping charges and are subject to change.

The Enterprise Module *per se* is discontinued. The features of the Enterprise Module are now bundled within all Miramo 9 license types (apart from the Solaris SPARC version). The *Miramo Enterprise Module Guide* documentation is replaced by the *mmServer Guide*, which details many enhancements and new features.

Prices shown in bold type apply when Maintenance is not in effect. Prices shown within parentheses apply when Maintenance is in effect.

\* Note: the above figures exclude post-upgrade first year mandatory Maintenance at 15% of price of the license that is upgraded to.
